

Design more efficient innovation policy instruments with better RIS3 monitoring

Final Conference of the Interreg Baltic Sea Region project
“EmplInno Monitoring Smart Specialisation Strategies”

16th June 2021, 9.30-12.00 (all times CET)

Registration: *please register by clicking this [link](#). A link to the conference room will be send to your registered email address prior to the conference. The attendance is free of charge.*

9.30 Technical Arrival, Welcome, Introduction

*Ilgvars Francis/Riga Planning Region
Gert Proba/Rostock Business
Lars Schieber/REM Consult*

9.45 Setting the stage – Rationale, aims and the reason why we are here

Lars Schieber/REM Consult

10.00 Motivation – Key learning points of regional partner activities and results 1

*Satakunta Region/FI
Lubelskie Voivodhsip/PL
Denmark/DK*

10.15 Your voice – Interactive small groups/breakout rooms with the audience

HOW MIGHT WE...

1. ... ensure a smooth dialogue and create trust between S3 strategy implementers and owners and further stakeholders?

Facilitated by Aase Højlund Nielsen/Danish Design Centre

2. ... develop and apply good digital tools for information from end-users in S3 monitoring systems?

Facilitated by Vaido Mikheim/Tartu Science Park

3. ... define indicators and methods that are relevant, long-lasting and could be used across Europe’?

Facilitated by Lars Schieber/REM Consult

10.45 BREAK

11.00 Bridging – back in the plenary – experiences and intermezzo

11.15 Motivation – Key learning points of regional partner activities and results 2

South-Savo Region/FI

Riga – Latvia/LV

Mecklenburg-Vorpommern/DE

Tartu – Estonia/EE

11.35 Beyond us – external perspective and status of RIS3 Monitoring and/or future S3 developments, innovation ecosystems, and policy instruments

Esa Kokkonen/The Baltic Institute of Finland - Policy Area Coordinator, EU Strategy for the Baltic Sea Region - Policy Area Innovation

11.55 Wrap up and final words

Lars Schieber/REM Consult

Ilgvars Francis/Riga Planning Region

Gert Proba/Rostock Business
